

SAIGILL LLC

Who are we?

Vimla Sai established SaiGill LLC in 2011 with a vision to build a business that would provide high-quality software solutions and services. Vimla is a certified project management professional (PMP), and received her master's degree in computer application from a University in India. Her extensive long career has allowed her to gain experience with both private clients and the public sector.

SaiGill specializes in Project management, Web design, Development (Microsoft technologies and Oracle), Database design and administration (Microsoft databases, Oracle), Systems integration consulting, SAP Reporting, and Software support. More than 20 years of experience in the IT industry providing high quality, client-centric IT solutions to many clients. The services provided have been cost-effective, intuitive and user friendly. A hallmark of our success has been cultivating long-term partnering relationships with all parties, in all business engagements.

As a small, Woman-owned business, we have provided solutions to our customers that are affordable, efficient, and within proposed budgets and periods. We have successfully delivered IT solutions and services to several clients, including Goodwill, Keystone area, ADMCSI, Commonwealth of Pennsylvania (DOC), etc.

ADMCSI	MediData System
PA Department of Correction	Environmental Toxic Inventory Management Suite

Past Performance:

1. GRMS:

GRMS is a web-based software that was developed by SaiGill for Goodwill Keystone Area to manage and optimize their customers and partial payroll data. GRMS is an easy-to-use, secure, and efficient Customer Processes Management (CPM) software. With the help of the GRMS web application Goodwill Keystone Area was able to sunset three legacy systems, MS-Access based processes, spread sheets, manual processes and old Dbase based technologies. In addition, GRMS also provided many enhancements, as well new business processes. The Master Schedule provides complete visibility of customer jobs completed and jobs in progress. Management has complete visibility of sales, inventory on hand, work orders, shipping of completed orders, invoicing and receivables. GRMS can track intercompany transfers at store level.

Customer Management Highlights:

- Customer Management
- Sales Management
- Contact Management
- Job/Project Setup
- Estimation
- Proposal Creation
- Scheduling
- Powerful Reporting Module

Payroll Management Module Highlights:

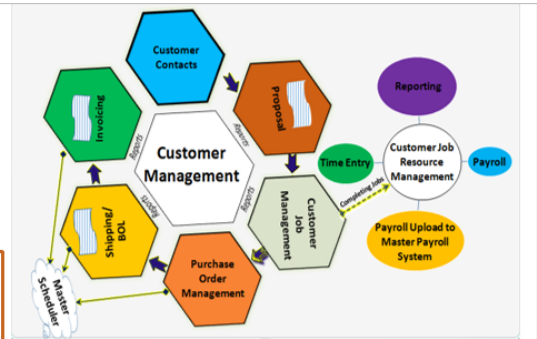

- Payroll related master data maintenance.
- Time Card Entry for employees as well as contractors
- Preparing Payroll to upload in HR system
- Powerful Reporting Module

Organization: Goodwill Keystone Area, Harrisburg, PA

Sector: Business services

Products and Services: Contract projects, custodial, document shredding and laser cartridge remanufacturing to businesses and government to support our mission.

Website: www.yourgoodwill.org

GRMS Benefits:

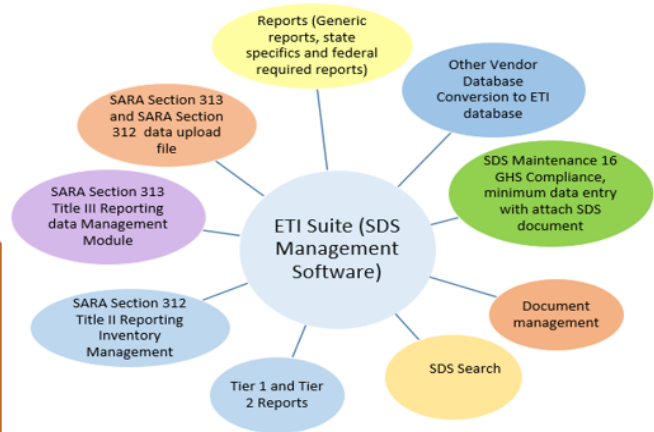

- Customer management business processes streamlining
- IT cost saving
- Process standardization
- Catalyst for business innovation
- User friendly
- Productivity and complete management visibility through advance reporting
- Document management and auto attachments
- Flexible and customizable based on customer needs

2. Environmental Toxic Inventory Suite (ETISuite):

ETISuite is a web-based software that is under development by SaiGill LLC, to manage and optimize SDS Management and EPA reporting in timely manner. SaiGill's extensive experience in Environmental software development and support brings unique opportunity for ETISuite customers - seamless data conversion from current MSDS Management software. ETI is an easy-to-use, secure, and efficient SDS and corresponding inventory management software. ETISuite can track SDS Inventory and reportable products at ingredient level.

ETI Suite Highlights:

- GHS Compliance SDS Authoring Web Application.
- SDS Search: with multiple filters and one-click sorting on searched lists.
- compliant 16-section feature, option to attach SDS document with indexing data elements.
- Useful resources links and attachment
- Easy Data Input and Maintaining inventory of master data and utilizing through out the application for data entry. Lookups are making data entry easy by inventorying safety phrases, hazard statements, product synonyms, parts, categories, etc.
- 256 EAS Security for user demographic information.
- Customer is in-charge of application access to users.
- On premise or web hosted
- Powerful Reporting Module
- Seamless conversion from any old MSDS format to new GHS Compliance SDS format- no additional cost.
- Search Capabilities.

ETI Suite Regulatory Benefits:

- Customized size NFPA and HMIS labels
- Clean Air Act, Clean Water Act
- Exposure (IARC/NTP/OSHA/Limits)
- Form R Categories (N Numbers), Form R Chemicals
- Document management and auto attachments
- Flexible and customizable based on customer needs
- State specific Hazardous Substance List and Special Hazard Information
- RCRA Waste Number and Hazard Characteristics DOT Number
- Section 311/312 Hazard Categories
